

Price List for FOLASTAL® and FOLASTAL STRONCOAT® PRODUCTS

1/3

Effective as of 1 January 2011. Prices are in €/tonne excluding tax and are subject to our General Terms and Conditions for Delivery and Payment. This price list applies to the manufacturing programme of Salzgitter Flachstahl. Deliveries shall be billed according to their actual weight.

(!) By prior agreement

1. Parity points

- Siegen (Germany)
- Avilés (Spain)
- Gent Zeehaven (Belgium)
- Seraing (Belgium)
- Charleroi (Belgium)
- Milano (Italy)
- Eisenhüttenstadt (Germany)
- Baracaldo (Spain)
- Fos-sur-Mer (France)
- Dunkerque (France)
- Thionville (France)
- Ijmuiden (Netherlands)

2. Basis prices

The thicknesses in this price list are the thicknesses BEFORE painting.

The thickness should be either the midpoint of the tolerance range specified in the order, or the target thickness ordered, whichever value is lower.

■ 2.1 Partially effective prices per coil for the basis material:

Hot-dip galvanized sheet of steel grade DX51D
Zinc coating thickness of 275 g/m² – double-sided

Front: Coating (5-7 µm)
Back: Protective paint (7-10 µm)
Colouring: acc. to mill standard

Width [mm]	700 <	800 <	900 <	1,100 <	≥
Thickness [mm]	800	900	1,100	1,300	1,300
0.40 < 0.43	1780	1663	1580	1486	(!)

1.75 ≤ 1.98	(!)	(!)	1192	1170	1168

Thickness: Folastal® above 2.00 mm and Folastal Stroncoat® above 1.98 mm on request. Widths less than 700 mm on request.

Other substrate material upon request.

Price List for FOLASTAL® and FOLASTAL STRONCOAT® PRODUCTS

2/3

Effective as of 1 January 2011. Prices are in €/tonne excluding tax and are subject to our General Terms and Conditions for Delivery and Payment. This price list applies to the manufacturing programme of Salzgitter Flachstahl. Deliveries shall be billed according to their actual weight.

(!) By prior agreement

3. Extra charges

3.1 Extra charges for steel grades:

Hot-dip galvanized sheet and Stroncoat® sheet

DIN EN 10346	
DX51D	0
DX52D	25
DX53D	52
DX54D	90
S220GD	0
S250GD	5
S280GD	15
S320GD	25
S350GD	40

Other steel grades: upon request

3.2 Discounts for zinc coatings

The normal coating is in compliance with the following coating categories:

- 275 g/m² double-sided – for hot-dip galvanized material acc. DIN EN 10346
- 140 g/m² double-sided – for Stroncoat® sheet acc. DIN EN 10346

and all features described in the Characteristic Steel Features Brochure "Flat steel products with organic strip coating" in the respective newest version (as published by Stahl-Informationen-Zentrum [Steel Information Centre], Duesseldorf) or a DIN EN specification replacing it.

In case of different coatings the following supplements and discounts shall apply.

When ordering a maximum coating or a minimum coating per side within a single coating category, billing shall be subject to prior clarification of manufacturing availabilities.

Coatings shall be tested in accordance with the above-mentioned DIN standards as well as the Characteristic Steel Features Brochure "Flat steel products with organic strip coating".

3.2.1 Hot-dip galvanized material acc. DIN EN 10346

Coating [g/m ²] Thickness [mm]	Z	≤ 150	151 – 225
0.40 < 0.50		- 25	- 9
0.50 < 0.60		- 20	- 7
0.60 < 0.80		- 15	- 5
0.80 ≤ 1.25		- 10	- 3
> 1.25		- 5	- 2

Thicker zinc coatings are subject to prior acceptance by the supplying mill.

3.2.2 Stroncoat® sheet acc. DIN EN 10346

Coating [g/m ²] Thickness [mm]	ZM	100
0.40 < 0.48		- 9
0.48 < 0.58		- 7
0.58 < 0.78		- 5
0.78 ≤ 1.23		- 3
> 1.23		- 2

Other ZM coatings are subject to prior acceptance by the supplying mill.

3.3 Extra charges/discounts for specific quantities

shall apply within the respective thickness ranges for:

- self-contained production of an ordered tonnage for a single recipient and a single destination
- the ordered tonnage per type of coating and per colour in case of paints
- the ordered tonnage in case of films

Quantity of [t] Thickness [mm]	< 20	20 < 50	50 < 100	≥ 100
0.40 < 0.80	50	25	0	- 20
0.80 < 1.25	60	35	0	- 15
≥ 1.25	80	45	20	0

Minimum purchase quantity in identical specification is one coil unit (18 - 22 kg/mm width)

3.4 Extra charges for reduced tolerances

acc. to DIN EN 10131 or DIN EN 10143 (2006)	
Close tolerance on thickness	15
Close tolerance on width	15

3.5 Extra charges for coil weights

Coils (without slit strip)

Width [mm] Coil weight [t]	700 < 800	800 < 1,100	≥ 1,100
4 < 6	15	22	27
≥ 6	0	0	0

3.6 Packaging

Weighing and billing is gross for net. Wood required for packing is included in the weighing.

Standard packaging for coils:

Base: Coils without wooden skid, horizontal axis

Wrapping types: with or without paper, with edge protection and packaging straps.

Special or seaworthy packaging:

Subject to acceptance and special charges

(Cp. Characteristic Steel Features Brochure "Flat steel products with organic strip coating" – published by Stahl-Informationen-Zentrum [Steel Information Centre], Düsseldorf.)

3.7 Extra charges for materials testing certificates

acc. to DIN EN 10204

Attestation of conformity with the order	2.1	0
Test certificate	2.2	3
Acceptance test certificate	3.1	5

Personal acceptance costs are at the charge of the ordering party.

3.8 Transport

The extra charge for transportation is calculated for the number of tonnes and based on the weighed tonnage including packaging.

Price List for FOLASTAL® and FOLASTAL STRONCOAT® PRODUCTS

3/3

Effective as of 1 January 2011. Prices are in €/tonne excluding tax and are subject to our General Terms and Conditions for Delivery and Payment. This price list applies to the manufacturing programme of Salzgitter Flachstahl. Deliveries shall be billed according to their actual weight.

1.75 ≤ 2.00	3	21	14	41	72	38	53	22

Other painting systems on request

4. General

4.1 In case of deliveries in coils, coil weights may be between 75 % and 125 % of the ordered or confirmed weight. Up to 20 % of the tonnage per item may be supplied with a weight between 25 % and 75 % of the confirmed coil weight. Lightweight coils of less than 25 % cannot always be avoided and may therefore be part of the shipment.

4.2 In case of deliveries in coils and as sorting is not possible, there might be up to 2 % defects per item. The proportion of defects may be higher inside individual coils.

4.3 In case of deliveries in coils, plates or cut-to-length units may only be in conformity with the mill standard or other respective standards, when the processing party has cutting and alignment facilities of an equally high quality.

3.10 Colours

Thickness [mm]	0.40 < 0.70	0.70 < 1.00	1.00 < 1.25	≥ 1.25

	9006(*) White aluminum
	9007(*) Grey aluminum

(*) RAL code that is the closest approximation

Note: For metallic tones of paint group 2, both extra charges will be applied.

4.4 Weighing tolerances on ordered quantities per item

The following excess deliveries or short deliveries are permitted per item on ordered quantities:

< 30 t	+/-20 %
≥ 30 t	+/-10 %

In addition, weight discrepancies resulting from dimensional tolerances must also be taken into consideration. We also reserve the right to stipulate the delivery of certain minimum quantities (depending on the product units).

4.5 We request that you observe the valid version of the document "Characteristic Properties 093 – Organically Coil-Coated Flat Steel Products" with regard to transport, storage and subsequent processing.
