

Welcome to Salzgitter Flachstahl GmbH

Better safe than sorry

Safety is very important to us. Therefore you will get a blue visitors helmet right at the beginning of your guided tour. This is to protect you and helps our staff to always recognize you as our guest. Our visitors have to be at least 16 years old.

Long distances to walk

As our company site is very spacious and there are a lot of stairs to climb, we kindly ask you to consider your physical abilities before deciding to take part in a guided tour.

Dress code

You are on the premises of a steel mill, thus you must wear skid-proof and closed shoes without any high heels. Furthermore, long-sleeved, closed shirts or jackets and long trousers (also for females) are mandatory.

No alcohol

Alcohol and other drugs are forbidden while visiting our company site.

Non-smoking areas

Generally, smoking is not allowed. You can only smoke in designated smoking areas.

Top Secret

You will certainly understand that some areas of our mill are subject to internal confidentiality. Photography and filming is therefore not permitted. Please leave your photohandies, cameras or film cameras at home, or give them to our staff before the tour begins.

Watch your wardrobe

Please pay attention to your luggage and wardrobe. We assume no liability.
